

Preclass Assignment

CHEM 1090-General Chemistry I

Name:

#21

Section: 32, MWF

Due Date: Wednesday 3/14/2018

1. Draw the shape of the carbon tetrachloride molecule, CCl_4 , and assign the values for the electronegativities for each atom.

2. Draw the shape of the carbon dioxide molecule, CO_2 , and assign the values for the electronegativities for each atom.

3. Draw the shape of the water molecule, H_2O , and assign the values for the electronegativities for each atom.
