

Participation Assignment

CHEM 1090-General Chemistry I

Name:

#6

Section: 33, TR

Due Date: Thursday 1/24/2019

1. Balance each of the following equations:

2. Calculate the molar mass of each of the following compounds:

a. sucrose, $\text{C}_{12}\text{H}_{22}\text{O}_{11}$

b. lead(II) acetate, $\text{Pb}(\text{C}_2\text{H}_3\text{O}_2)_2$

c. water, H_2O

3. Calculate the mass, in grams, for 1.34 moles of each of the following:

a. water

b. lead(II) acetate

4. Calculate the number of molecules in 0.2337 moles of sucrose.
