

Participation Assignment

CHEM 1100-General Chemistry II

Name:

#13

Section: 31, TR

Due Date: Thursday 2/21/2019

1. This is a continuation of the weak acid ($\text{HC}_2\text{H}_3\text{O}_2$)-strong base (NaOH) titration begun the previous day.

Point B: Calculate the pH after the addition of 12.50 mL of the NaOH solution.

Point C: Calculate the pH after the addition of 25.00 mL of the NaOH solution.

Point D: Calculate the pH after the addition of 35.00 mL of the NaOH solution.
