

Participation Assignment

CHEM 1100-General Chemistry II

Name:

#19

Section: 31, MWF

Due Date: Wednesday 9/6/2017

1. Use standard enthalpies of formation to calculate the standard enthalpy of reaction for the following at 25 °C:

2. Use standard entropies to calculate the standard entropy of reaction for the following at 25 °C:

3. Use the definition of free energy to calculate the standard free energy of reaction for the following at 25 °C:

4. Use standard free energies of formation to calculate the standard free energy of reaction for the following at 25 °C:
